

The Operating System

for Port Drone & eVTOL Operations

Govern. Secure. Monetize. 3D Planning.

One platform to manage every drone, operator, flight corridor, inspection, and eVTOL operation across your port ecosystem.

Port Authority Challenges

- No Visibility Across Tenants
- Unauthorized Drone Activity
- FAA, DHS & USCG Compliance
- eVTOL & Vertiport Readiness
- Unmonetized Airspace

HoverSafe Platform

- Port Authority Wide 3D GIS Model
- Drone Registration & Permitting
- Governance & Compliance
- Airspace and Fee Management
- Emergency Response Management

Why Ports are Acting Now

**Rising Drone
Traffic**

**Security
Concerns**

**Federal
Compliance**

**Revenue
Opportunity**

Proven Momentum

**28 Cities
on Platform**

**5 Pending
Contracts**

**State & Municipal
Compliance**

**Vertiport & Aviation
Expertise**

Hover Safe Advantage

**Single Operating Picture Across the Entire
Port**

**Supports Drones, eVTOLs & Future AAM
Operations**

Multi-Tenant Ready from Day One

Creates Operational & Revenue Visibility
